Digital Logistic Services

digita lize

your supply chain and logistics

Digital Logistic Services, in partnership with project44 and Monstock, develops the first **digital optimization ecosystem** for Supply Chains and logistics.

The solution connects platforms and equipment in real time, **delivering greater productivity and cost-effectiveness while improving drivers' conditions and reducing carbon emissions.**

project44

PLANNING AND FORECASTING

- Supplier visibility and last-mile delivery
- Cold chain tracking
- Route and arrival time forecasting
- Integrated appointment scheduling via capacitive touchscreen

Monstock

JUST-IN-TIME DOCK MANAGEMENT

- Smart warehouse management
- High connectivity
- Smart re-supply system
- Enhanced product tracking and tracing
- Extended performance indicators
- Smart data analytics with world-scale data extraction

Digital Logistic Services
